Introduction-What is Blackboard

- Today's Digital Technology for Educators
- Powerful and easy to use
- A Course Management System (CMS) which connects your course materials with your students in a secured environment.
- A set of built-in tools for communicating with your students; Discussion Board, File Submission tool, Gradebook, etcetera.

Introduction-What is Blackboard

- Strong pedagogy principles
- Private communication space
- Accountability and Measurability

Why should I use Blackboard

- Your lessons, Lecture notes, video tutorials. presentations etc. are accessible to students anywhere there is Internet access.
- You can create tests ,quizzes and assignments that grade themselves and students get instant feedback.
- It is template based, so it does not require computer expertise

What does Blackboard have to offer

- Post lessons, materials on-line
- Give assignments, tests and quizzes on-line
- Track students activity and timeliness
- Post announcements
- Post grades timely
- Take surveys
- Create discussion boards
- Organize calendar
- Manage your grade book
- Create collaborative groups
